

UNIVERSITAS GADJAH MADA  
FAKULTAS PERTANIAN

**POSTDOCT FELLOWSHIP POSITION OPEN**  
(9 - 20 March 2015)

The Faculty of Agriculture, Universitas Gadjah Mada (UGM) open a postdoc position for one scientist to work on a research collaboration of UGM - Wageningen University and Research Center (WUR) under KNAW-SPIN JRP 034 project entitled "The Indonesian banana: protecting a staple food from Panama disease collapse and exploiting its genetic diversity for discovery research". The research topic to be conducted for two year postdoc period is "Fusarium suppression through banana-microbiome-soil interaction". The research work will be conducted both in Indonesia under the supervision of Dr. Siti Subandiyah, Dept. of Plant Protection, UGM and in the Netherlands under the supervision of Dr. Jos Raaijmakers KNAW-NIOO, and Dr. Jetse Stoorvogel, Soil Geography and Landscape Group WUR. Please contact [sitisubandiyah@ugm.ac.id](mailto:sitisubandiyah@ugm.ac.id) and send your CV (plus email and Skype addresses and contact number).

Dean

Dr. Jamhari, S.P., M.P.
